CBA Pathway

The Deadly Coders Academy is a paid-to-learn Software Engineering Bootcamp for First Nation Australians, delivered in partnership with the Commonwealth Bank of Australia. Participants build job-ready full-stack engineering skills with a direct pathway into CBA Tech Associate roles. We are recruiting 10-15 students for our inaugural Sydney cohort, launching **31 August 2026**. We are asking trusted partners to help us reach the right candidates.

CAREER PATHWAY

Deadly Coders Academy

10-Week Bootcamp

Capstone Showcase

CBA Tech Associate

PROGRAM CURRICULUM

Week 1

Orientation & Tech Foundations — Dev environment, TypeScript, Git, responsible AI, growth mindset

Week 2-3

WHO SHOULD APPLY

- First Nation Australians (Aboriginal or Torres Strait Islander)
- Based in Sydney or able to attend CBA offices two days per week
- Some prior coding experience or a relevant qualification
- Passionate about technology and a career in software engineering
- Currently studying, between jobs, or early in their career
- Ready to commit to 10 weeks of intensive, paid learning

WHAT GRADUATES WILL ACHIEVE

- Job-ready full-stack skills – TypeScript, React, Node.js, AWS, testing and DevOps
- CBA Tech Associate pathway – Curriculum mapped to CBA's Associate Engineer competency framework
- Professional GitHub portfolio – Real project work to showcase to employers
- Responsible AI practices – Embedded from day one as a professional skill
- Paid learning opportunity – Students receive a stipend throughout the program
- First Nations-led support – Culturally safe environment, Indigenous-led organisation
